
Create an Ideal Business

Design an ideal, modern-day business based on your understanding of at least one of the four Jewish texts previously studied.

Your presentation about your ideal business can be shared in the form of writing, a poster or visual art piece, or a video presentation or “pitch” that explains the elements of your ideal business.

Your plan should include answers to the following questions:

1. What is your ideal business?
2. How will you make sure it is both profitable (you can make money off of it) and ethical (workers, customers, and the environment are treated well)?
3. Who do you employ?
4. What do your employees do?
5. What are your responsibilities as an owner/employer? How will you support your workers?
6. What are the responsibilities of the workers? How will they support you and your business?
7. Which text(s) did you choose?
8. How do the ideas in this text relate to your ideal business plan?
